

WE NEED YOU- To Submit and Vote on GAIN!

To support Spark Tank, SAF/MG launched the Guardians and Airmen Innovation Network (GAIN) platform, which allows Airmen and Guardians to share ideas, critique submissions, and upvote the most promising solutions. The personnel with the most game-changing and upvoted ideas then compete at the culminating Spark Tank event.

To submit to GAIN, navigate to [Platform One](#) and register for an account using a CAC. Once the account is created, navigating to the Spark Tank '22 Campaign is just a few short clicks away.

Once on the Spark Tank landing page don't forget to click on the 'Follow' button to see the latest news. Submit an idea by navigating to the 'Participate' tab and selecting the 'Submit Solution' button. From there, a query page will populate where you can submit your idea to the Spark Tank '22 campaign.

Don't Forget! - Submissions are due October 15th, 2021

This year, Airmen and Guardians will also be able to vote on Spark Tank submitted ideas through a process called pairwise voting. This means that for each possible pair of Spark Tank submissions, one pairwise count indicates how many voters prefer one of the paired Spark Tank submissions over the other candidate. The other pairwise count indicates how many voters have the opposite preference. Pairwise voting takes two possible solutions and indicates which of the two the voters prefer. This is similar to a ‘round-robin’ tournament with the Spark Tank submission with the majority votes winning in every pairwise comparison. Voting will be open to anyone on the platform and can be accessed on the ‘Participate’ tab. ***Spark Tank voting will take place from 16-31 Oct.***

GAIN's Pairwise leverages an ELO scoring system. This provides deeper and more reliable insights into the final results being used to make down-select decisions.

The GAIN team will host an AMA session on the 3rd Wednesday of every month. The next meeting is 20 Oct at 1400 EST.

The session will begin with a demo of some aspects of the platform followed by time to open the line for hopes, wishes, dreams, desires, concerns, etc.

Comments and questions will be collected and published to a GAIN FAQ.
